

RENOVATION WORKS FORT ASPEREN ACQUOY (THE NETHERLANDS)

Fort Asperen is one of the forts of the Nieuwe Hollandse Waterlinie (New Dutch Waterline). A project was started in 1999 to secure the future of this Dutch national heritage and to establish placement of the Waterline on the UNESCO world heritage list. In 2006-2007 a complete renovation of Fort Asperen was executed. For more information check www.fortasperen.nl.
